您可以在Android、iOS、Windows 8等行動裝置系統的應用商店下載免費的UpToDate App，使用時須要登入帳號密碼，一個帳號最多同時在**兩台行動裝置**登入。下一張投影片將教您如何註冊您個人的帳號密碼。

註冊UpToDate Anywhere的帳號

首先，在醫院網域內使用電腦打開UpToDate，然後點選Log-in/Register

簡單的註冊流程

The screenshot displays the UpToDate website interface. At the top, the UpToDate logo is on the left, and links for Languages and Help are on the right. Below the logo, a navigation bar includes 'Welcome, Uptodate', 'Log in / Register', and a search bar with 'All Topics' and 'Contents' dropdowns. Further right are links for 'Patient Info', 'What's New', 'PCUs', 'Calculators', and 'Drug Interactions'.

The main content area is titled 'Register for important benefits' with a subtext: 'Once you register or log in, you can earn CME/CE/CPD credit each time you research a clinical question.' Below this, there are two main sections:

- 2. 登入 (Log in (Returning User))**: This section prompts the user to 'Log in with your UpToDate user name and password.' It features input fields for 'User Name:' and 'Password:', a checkbox for 'Remember my user name', and an orange 'Log in' button. Below the button are links for 'Log in help' and 'Athens Log in'.
- 1. 註冊 (Register (New User))**: This section prompts the user to 'Register (New User)' with a 'Learn More' link. It states 'All fields are required for registration' and 'Select your user name and password'. It includes input fields for 'First Name', 'Last Name', 'Email Address', 'Verify Email Address', and 'ZIP/Postal Code'. There are also dropdown menus for 'Specialty' and 'Practice Type'. On the right side of this section, there are input fields for 'User Name', 'Password', and 'Verify Password'. An orange 'Submit Registration' button is at the bottom right, with a link 'Skip this for now' below it.

At the bottom of the page, there are links for 'Subscription and License Agreement' and 'Support Tag', and social media icons for Facebook, Twitter, LinkedIn, and YouTube.

Acute hemodialysis prescription

SUMMARY AND RECOMMENDATIONS

- Acute kidney injury (AKI), formerly called acute renal failure (ARF), is a major cause of morbidity and mortality, particularly in the hospital setting. Acute renal replacement therapy, including acute intermittent hemodialysis, is commonly indicated for patients with AKI. (See 'Introduction' above.)
- The components of the acute dialysis prescription include the choice of hemodialysis membrane, dialysate composition and temperature, blood flow rate, amount and rate of ultrafiltration (UF), choice of anticoagulation, and total dialysis dose. Individual components of the prescription vary depending upon the indications for dialysis and on patient-specific variables. (See 'Components of the acute hemodialysis prescription' above.)
- We use biocompatible membranes for acute hemodialysis. Membranes can be low or
